OBJECTIVE

Quick-thinking passionate student seeking experience after graduation. I'm looking forward to using my programming experience in a professional environment, and meeting people in the industry.

RELEVANT EXPERIENCE

August 2020 – Present

Student – University of Nevada, Reno – Computer Science & Engineering

I've developed multiple projects in Unreal Engine and Unity. My university capstone project is an Unreal Engine 5 role-playing game focused on implementing the turn-based combat of 5th edition Dungeons and Dragons. My focus in the project involves using UMG to design the user interface, and handle the character sheet implementation, including character stats, inventory, and equipment systems.

July 2018 – Present

STEM Tutor – Truckee Meadows Community College, Reno NV – Math and Computer Science.

Working as a tutor improved my ability to explain and teach subjects. I've received multiple commendations from students regarding my ability to help in comprehension and reexamination of concepts.
